

FUNCTIONAL ART

Title: *Seattle Grid*, 1975

Artist: Anne Knight

Location: Two locations: 1st and Pike, SW corner; and 1st and Stewart, NW corner.

Description: Cast iron manhole cover representing a relief map and listings of popular Seattle locations. Small icons show the locations of each landmark. Artist created eighteen of these manhole covers commissioned by the City of Seattle's 1% for the Art program.

Title: *Self-Watering Vertical Planter*, circa 1999

Artist: Lewis "Buster" Simpson

Location: Northeast corner of Post Alley at Virginia Street

Description: Upturned plastic sewer pipe created to collect rainwater in the downspout to water whatever vegetation grows in the pipe's multiple-headed openings. Playful sculpture honors John Turnbull, PDA manager. www.bustersimpson.net

Title: Bench with pipe railing, 1999

Artist: Lewis "Buster" Simpson

Location: Northeast corner of Post Alley at Virginia Street

Description: Cherry wood bench built with wood from an old cherry tree that grew in the area where Pike Place North condominium now stands. www.bustersimpson.net

Title: *Urban Archeology*, circa 1980

Artist: Lewis "Buster" Simpson / Jack Mackie

Location: Post Alley behind Triangle Building

Description: Concrete bench incorporating layers of ceramic and brick left behind from demolition of cafes during redevelopment of 1st Avenue. www.bustersimpson.net

Title: *Four Square*, 1995

Artist: Brian Swanson

Location: Patio on level 3 under Flower Row

Description: Seating is based on a 1860's Victorian design of the first upholstered chair. Made of woven wire, perforated and flat sheet, bar steel, auto differential gears, stove legs and a dessert cup.
